Power plus Portability.
Intense graphics in a highly mobile design

HP recommends Windows Vista® Business.

HP EliteBook 8530p Notebook PC

The HP EliteBook 8530p Notebook PC delivers exceptional graphics and performance in a powerful—yet portable—15.4-inch diagonal notebook.

Experience your work in high definition
Run demanding applications and experience fast rendering capabilities with ATI graphics with DirectX 10 support, fast hard drives and support for up to 8 GB of memory [1]. Dual Link DVI gives you support (through optional docking) for ultrahigh resolution monitors and the eSATA port provides fast and easy connection to an external storage device. Record, rewrite and playback highdefinition (HD) video [2] with the optional Blu-ray R/RE DVD+/-RW SuperMulti DL Drive [3], [4]. The convenient HDMI port allows you to connect to high-definition TVs and displays.

Flexible solutions
Strengthen security measures and remotely monitor, diagnose and repair PCs over the network with Intel® Centrino® 2 with vPro™ technology [5]. Easily replace your optical with an optional secondary hard drive or upgrade to an optical drive with the Upgrade Bay with Dual HDD Support. Having an optional second hard drive installed allows RAID 1 Mirroring or RAID 0 Striping.

Enjoy wireless in more places
Whether you're across the street or across the country, integrated HP Mobile Broadband, Gobi technology [6], Wi-Fi CERTIFIED™ WLAN [7] and Bluetooth® help you stay connected. You also get the flexibility to add HP Mobile Broadband at a later date.

HP Professional Innovations help you focus on your business
Built to last. Enhanced reliability features such as HP DuraCase, HP DuraKeys, HP DuraFinish and HP 3D DriveGuard give you a durable device that has been tested and meets the military standard MIL-STD 810F tests including dust and low temperature [4].
Built to simplify. Boost your productivity while maximizing ease of use. The 2 MP Webcam with Business Card Reader software means you will never forget a name, e-mail or phone number. The webcam is also perfect for video, web conferencing, and VoIP [8].
Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications and your data.
